| Contractor, Address, Phone# | | | | |
| Utility Companies: | | | | |
| Comments: | | | | |

NOTICE

Notify the environmental protection division by mail 10 business days before the demolition is to begin. Notification is required even if there is no asbestos present in the building. Specific forms are necessary for notification. If asbestos is present in the building, it should be addressed before the demolition. Oftentimes, asbestos must be removed by a Georgia licensed asbestos contractor before demolition begins. If asbestos is present and the demolition continues, the owner of the building and the demolition contractor carry equal responsibility if asbestos is disturbed.

Any of the following E.P.D. offices can provide information:

Atlanta: (404) 363-7026

Brunswick: (912) 264-7284

Savannah: (912) 353-3225

Notification forms can be provided by fax or mail. They are also available from the E.P.D. website at www.dnr.state.ga.us/dnr/environ

It is in the best interest of property owners and demolition contractors to be knowledgeable of all state and Federal regulations before engaging in any demolition activity. The Georgia Environmental Protection Division takes regulatory responsibility seriously and will not hesitate to vigorously enforce the asbestos Regulations. Regulations allow for a penalty of \$25,000.00 per day for each violation.

I hereby certify that I have read and examined this application and know the same to be true and correct. All Provisions of laws and ordinances governing this type of work will be complied with whether specified herein or not. The granting of a permit does not presume to give authority to violate or cancel the provisions of any other state or local law regulating demolition or the performance of demolition.

Demolition Permit Fee \$50.00

(Proof of insurance is required before any permit can be issued).
